This is a FREE sewing pattern created and distributed by AriNico Cosplay (CC BY 4.0). You are welcome to use, share, and transform this pattern. You may even sell hats that you have created using this pattern. However, distributing this pattern for profit without any modifications is prohibited as it was intended by the creator to be free to use.

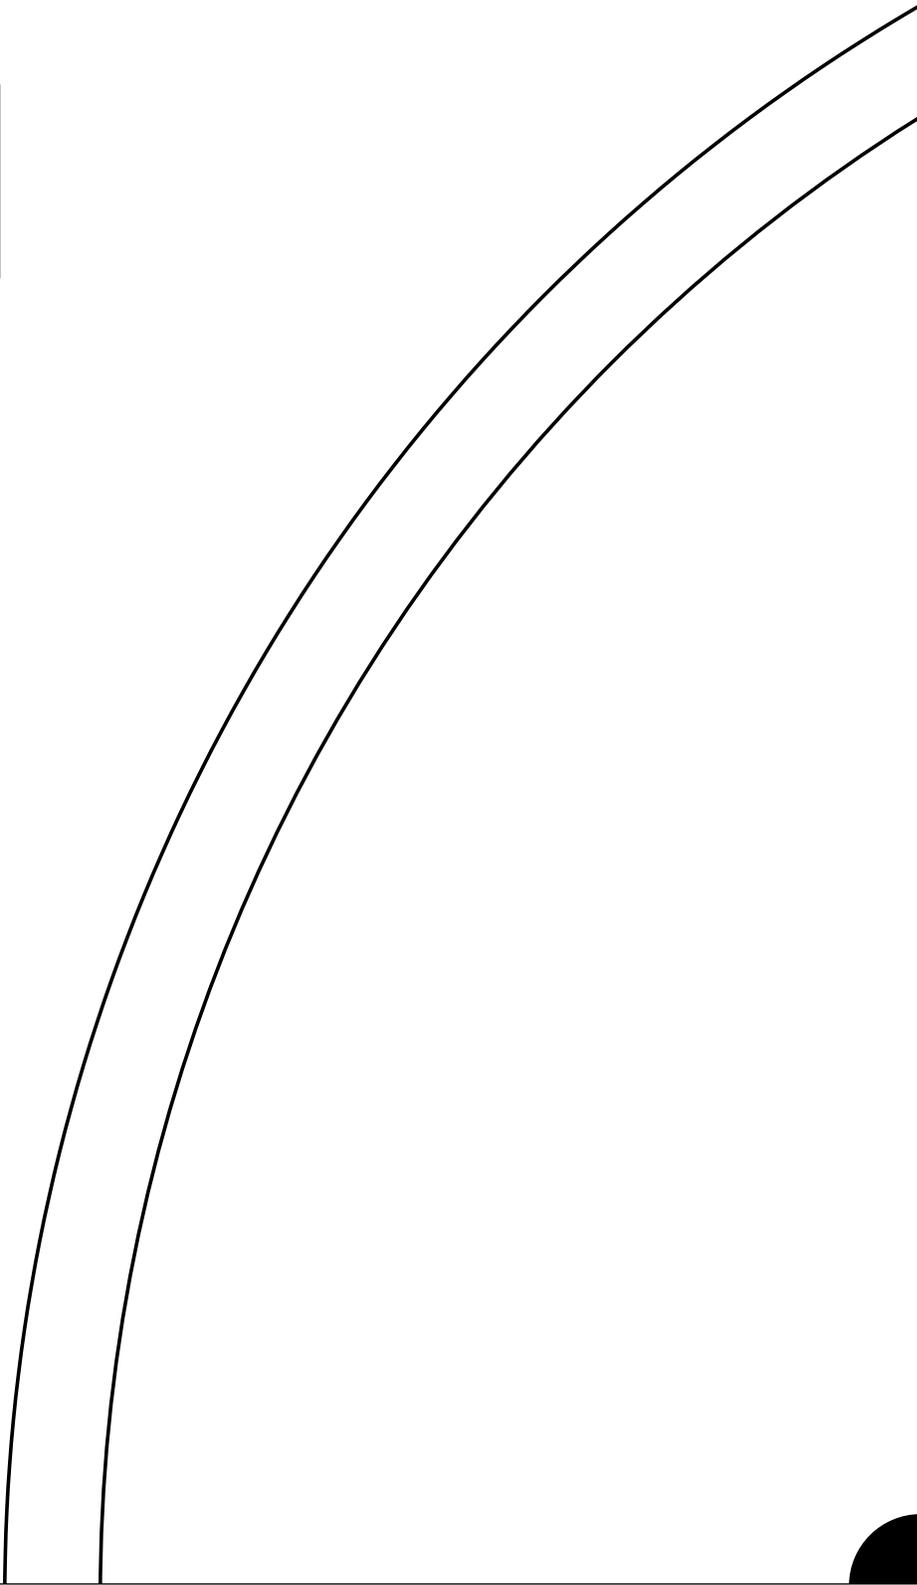

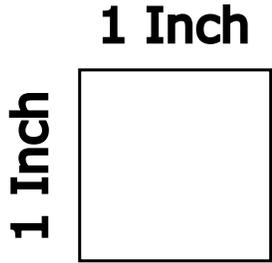

PRINTING NOTES:

- Print the PDF pattern at **100% scale** or **Actual Size**. Having the appropriate drivers for your printer may help with accurate print scaling.
- Before printing the full pattern, print the first or last pattern page and use a ruler to measure the 1-inch test square to ensure the pattern is sized appropriately. Adjust your printer settings if needed so that the test square measures 1-inch.

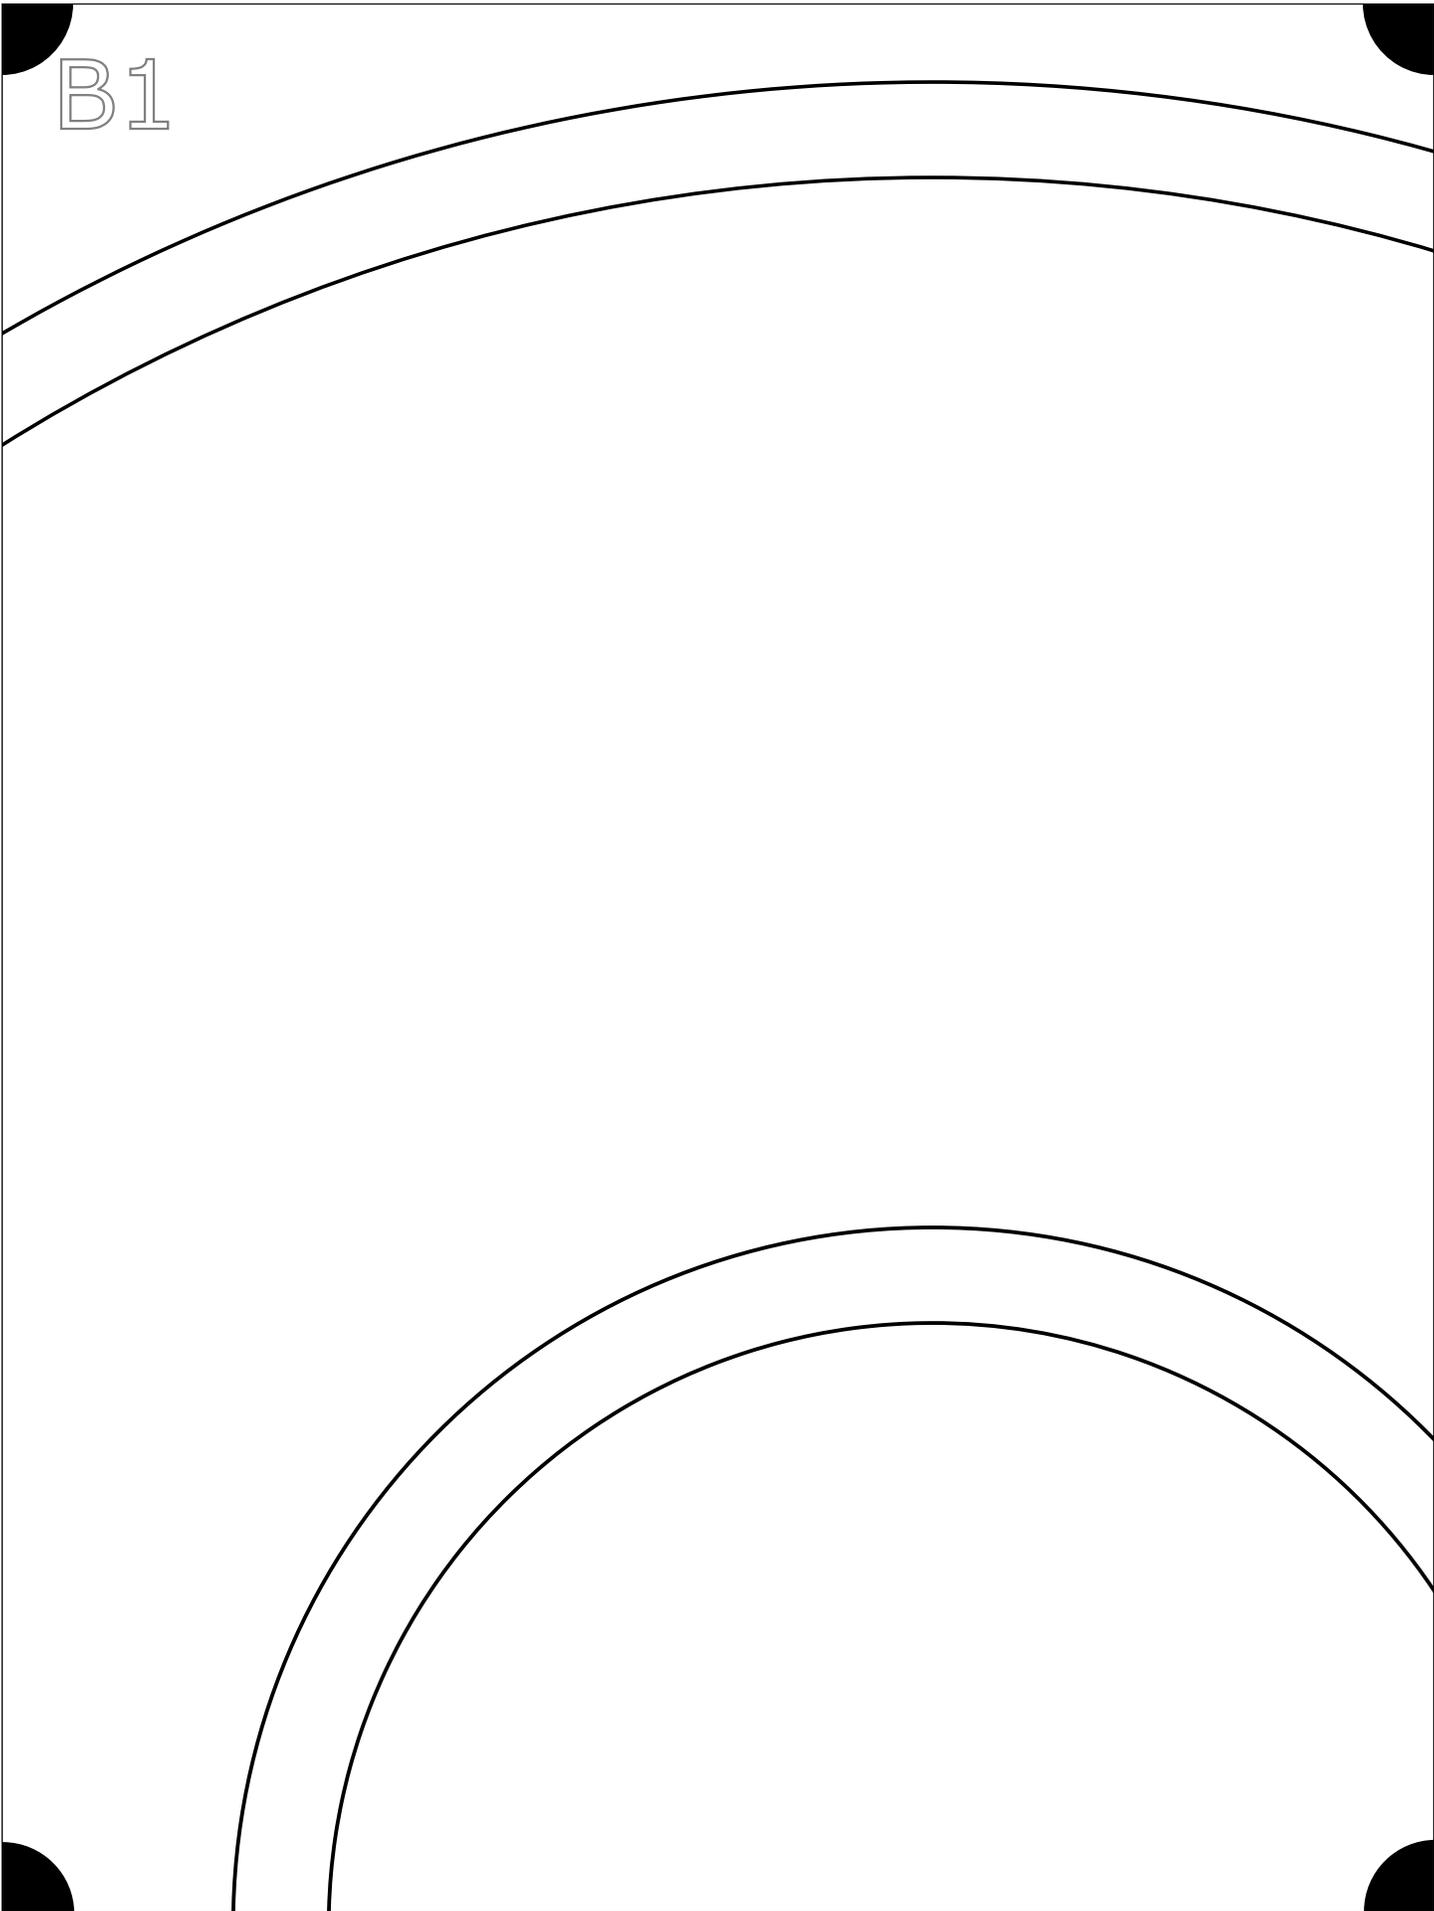

PATTERN & CONSTRUCTION NOTES:

- The pattern consists of a cone and brim, both of which include seam allowance of $\frac{1}{2}$ inch.
- The final hat dimensions are as follows (adjust the pattern to your liking):
 - Hat Opening: 23 inches
 - Brim Width: 5.5 inches
 - Cone Height: 10.5 inches
- Buckram is recommended to stiffen the cone and brim, however any interfacing can be used depending on the desired outcome. Topstitching concentric circles around the brim can also help add stiffness.
